## NEW YORK STATE AND COUNTY LISTING REPORT - 2024

Compiled by Carena M. Pooth - carena@prodigy.net

**HEADLINERS:** **Pat Lindsay** continues to lead in the NYS life list category with 463 species (up 4 from last year). **Willie D’Anna**, **Jay McGowan**, and **Bill Purcell** each hold record highs for 4 counties and one region; **Jeff Bolsinger** for 3 counties and one region; and **David Harrison** for 3 counties. The three participants with the highest number of county list ticks in 2024 were **Jeremy Collison** 9980 (9509 last year), **Gary Chapin** 9433 (9382 last year), and **Bill Purcell** 9121 (9118 last year).

**KEY STATISTICS:** 114 reports were submitted, down from 121 for 2023. 5 new regional and 25 new county records were set (boldfaced in the lists below). 21 participants had lists for all 62 counties (same as last year). 8 people reported at least 50 species in all counties (7 last year), and 6 of those had at least 100 in all counties (same as last year). Some of the heavy hitters who didn’t report last year were back, so that the number of people reporting at least 100 species in all 10 regions bounced back from 6 to 13. 3 people reported at least 175 species in 3 regions: **Jeremy Collison**, **David W. Harison**, and **Bill Purcell**.

**YOUNG BIRDERS:** Kudos to **Vincent Cassetta** and **Elle Plasse**, who were under 18 on 12/31/24 but diligently kept records throughout the year and submitted their reports. Their names are flagged with 🐦 in the lists below.

**BIRDER NOTES:** **David W. Harrison** mused about lumps and splits as he celebrated his “finally reaching 400 species this year - twice! First with the American Flamingo at Georgica Pond and then again (after Hoary Redpoll dropped off my list), with Bullock’s Oriole at Stillwell Woods Park. That must mean it’s time for the taxonomists to re-lump the two orioles.” **Tim Healy** beautifully articulated the joy of self-found rarity: “The celebrated American Flamingo at Georgica Pond was a particularly noteworthy highlight, but nothing could compare to the astonishing thrill of finding my own new addition to the official state checklist: a Red-footed Booby soaring over the roof of my beloved Astoria apartment! Talk about an unexpected yardbird! And **Shai Mitra** explained how the work that listing entails brings back wonderful memories: “This year Patricia Lindsay and I worked long and hard to align our historical records and eBird, and to assign our records from the “split counties” accurately to the appropriate Regions. This process, although tedious, was also very enjoyable. We remembered details from almost all of those days afield together, and vetting the records improved the accuracy of our lists. We wound up gaining many ticks but also lost some, for instance for Herkimer County and Region 5 (we had mis-assigned some old records to Herkimer County that were actually in Hamilton). Looking forward to another year exploring New York!”

**FAREWELL TO A LONGTIME COUNTY LISTER:** In 2024 we sadly lost **Lenore Swenson**, loved and admired by many and known for generously sharing her knowledge in the field every chance she got.

**SELF-FOUND BIRDS:** Apologies for the extinct link on the form to the self-found bird listing rules; unfortunately, the document is no longer posted online. Watch for a new one to be developed for 2025.

### BIRDS TO OMIT FROM YOUR NEXT REPORT:

1. Species not yet on NYSOA’s official *Checklist of the Birds of New York State* for the year being reported should not be included in your counts.
2. EXOTICS (“PROVISIONAL” or “ESCAPEE” SPECIES IN eBird) should be omitted. Include only “native,” “naturalized,” and “provisional” species as now defined in eBird, IF they are also on the NYSOA checklist.
3. Don’t forget to reduce your count appropriately when species have been lumped together into one.

**FORMATTING AND NOTATIONS:** In the list for each county below, \* indicates the birder is a resident of that county. **Boldface** at the top of a list indicates a new high. *Non-bold italics* at the top of a list indicate a record high unchanged from last year. Record highs not met or surpassed this year are at the end of the report.
