NEW YORK STATE AND COUNTY LISTING REPORT - 2025

Compiled by Carena M. Pooth - carena@prodigy.net

HEADLINERS: **Pat Lindsay** has now been leading in the NYS life list category for *five years in a row*, up 5 from last year to 468. Among this year's participants, **Bill Purcell** still holds record highs for 4 counties and one region; **Jeff Bolsinger** for 3 counties and one region; and **David W. Harrison** for 3 counties. The three participants with the highest number of county list ticks in 2025 were **Jeremy Collison** 10394 (9980 last year), **Gary Chapin** 9665 (9433 last year), and **David W. Harrison** 9266 (8941 last year).

KEY STATISTICS: 122 reports were submitted, up from 114 for 2024. 2 new regional and 24 new county records were set (boldfaced in the lists below). 26 participants had lists for all 62 counties (21 last year). 8 people reported at least 50 species in all counties (same as last year), and 6 of those had at least 100 in all counties (same as last year). 12 people reported at least 100 species in all 10 regions (13 last year).

SELECTED BIRDER NOTES: **Neal Reilly** called out two superlative sightings: "Most Unexpected State Bird: Broad-billed Hummingbird south of Buffalo on October 25th! Best county bird: American Golden-Plover in Schenectady County on September 1st." **Gary Bletsch** braved a new frontier: "I finally made it to the last few NY counties where I had never recorded any birds. I set foot in Staten Island for the first time ever, and managed to tick 8 species around the ferry dock, to make my 62nd county list!" Congrats to **Aidan Perkins** for breaking "the Suffolk County Big Year record with 319 species, including the pelagic zone, which contained 5 species: Band-rumped, Leach's, Sargasso, Manx and Scopoli's." **Shai Mitra** was happy to report "two milestones for me, finally reaching 300 species for my patch at Robert Moses SP (via a bird as common and widespread as Common Merganser!) and 400 for Suffolk County (via Bullock's Oriole)." **Tim Healy** reflected on two outstanding experiences he had in 2025: "It was a genuine honor to be present for the discovery of New York's first-ever Arctic Warbler while birding at my beloved patch alongside a crew of close friends, with this record resulting in the addition of an entirely new family to the official state checklist! Another noteworthy highlight was the celebrity Common Cuckoo that showed up in Riverhead, marking a major milestone as my 400th species for Region 10!" **David W. Harrison** offered an insight into what gets us hooked and what keeps us involved in county listing: "Next year's goals are to spend more time birding with friends (they keep me going), to go to under-birded counties more often and to try a County Big Day in a new region. Almost forgot; getting Fulton County over 200 was special for me. It's the county that got me interested in the county listing project during the second BBA when I saw how poorly represented it was."

FAREWELL TO A LONGTIME COUNTY LISTER: On April 6, 2026 we sadly lost **Jane Graves**, loved and admired by many and a highly regarded volunteer for NYSOA in various roles including as a director.

SELF-FOUND BIRDS: Thanks to Shai Mitra for providing an updated set of rules, posted here in October 2025: <https://nybirds.org/CountyLists/self-found-rules2025.pdf>

BIRDS TO OMIT FROM YOUR NEXT REPORT:

1. Species not yet on NYSOA's official *Checklist of the Birds of New York State* for the year being reported should not be included in your counts.
2. EXOTICS ("PROVISIONAL" or "ESCAPEE" SPECIES IN eBird) should be omitted. Include only "native" or "naturalized," species as now defined in eBird, IF they are also on the NYSOA checklist.
3. Don't forget to reduce your count appropriately when species have been lumped together into one.

FORMATTING AND NOTATIONS: In the list for each county below, * indicates the birder is a resident of that county. **Boldface** at the top of a list indicates a new high. *Non-bold italics* at the top of a list indicate a record high unchanged from last year. Record highs not met or surpassed this year are at the end of the report.
